

*.. BUT  
WILL  
HE  
WOAH?*

What people say about the Nurtural:

"It felt as if I had installed power brakes, requiring only a fraction of the pressure I usually need to get a balanced stop."

"I have a 21 year old Belgian Draft. Put him in this bitless now he stops on a dime and gives you a nickel change."

"I just tried my new bridle!! :) My horse was so light and perfect! He gaited like he never has with a bit! He was so soft & responsive and stopped immediately!"

*.. BUT  
I NEED  
A BIT  
TO SHOW!*

Develop your show horse Nurturally'. See what can happen when you school Nurturally.

"I schooled Cristallo in his bitless bridle before the Nations Cup yesterday and the USA won. Today (Sept 12, 2010) we schooled bitless, and he was second in the CN international \$1,000,000 class.

He is so much happier. It is amazing because he is such a strong horse, we were always trying stronger and stronger bits. When I school him bitless he relaxes and enjoys our work. Then when Richard uses the bit in the show ring he is much more responsive. Thank you Zoe"
